Centre for Intellectual Asset Protection

Directorate of Innovation, Incubation and Entrepreneurship

SRMIST is a frontrunner in the area of Intellectual Property (IP) filing and Commercialisation. SRMIST has been one of the very few institutions with diverse area of fields in which our IPs are filed.

The Centre for Intellectual Asset Protection (CIAP) has been constituted for managing the entire IP activities of SRMIST. The CIAP is the single point of contact for all the stakeholders in the Intellectual Property Protection at SRM IST Kattankulathur. The Centre will engage with our

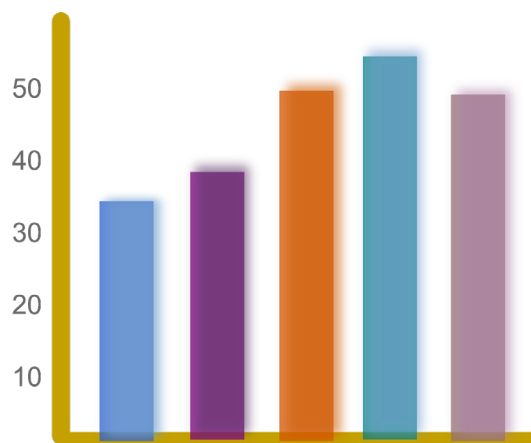

students and faculty members continuously via various programs every month to educate them about protecting their intellectual inventions.

The CIAP is organising two seminars in the area of IP Commercialisation and Importance of IPR in Engineering Research in the month of February, 2022. The details will be communicated shortly

As a part of the instituting our new CIAP, we are glad to present our first monthly newsletter of the year 2022.

January Month Statistics

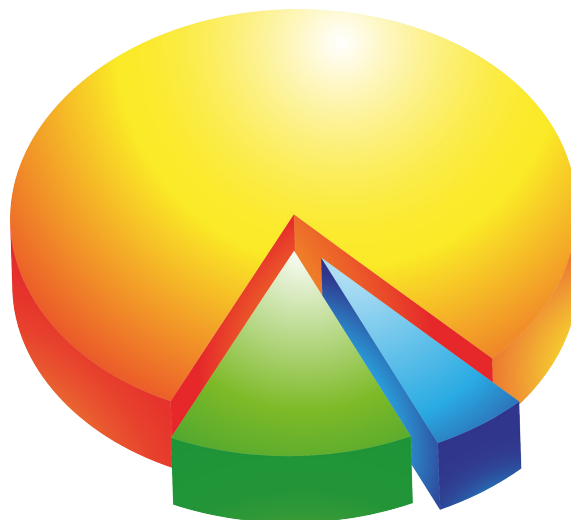

IP Details/Month	Jan-22
No. of IDFs received	22
No. of IDFs under prior art search	32
No. of IDFs approved for Filing	10
No. of new patent application filings	7
No. of published patent applications	3
No. of patents FER ISSUED	7
No. of patent FER Response Filed	21
No. of Granted Patents	3

Year Wise Patent Statistics

The past year saw a dip in the number of patents that were filed and published from the campus due to the ongoing pandemic. We hope that these numbers pick up in a large way so that SRMIST can maintain its position as a leader in this field.

Year	Patent Filing activity
2012	1
2015	1
2016	6
2017	79
2018	120
2019	62
2020	210
2021	61
2022	6
Grand Total	546

Patents Granted in January 2022

Dr. A. Murugan & his team from the Department of Data Science and Business Systems from the School of Computing has got their patent granted where their invention detects the humidity and soil texture for better crop yield.

Dr. Shubhabrata Datta & his team from Department of Mechanical Engineering has got their patent granted for a new composition of lubricant oil which is based on multiple vegetable oil sand additives.

Dr. Ashish Kapoor & his team from Department of Chemical Engineering got their patent granted for the invention of new technique to manufacture a paper based Lab-on-a-chip

The Centre for Intellectual Asset Protection (CIAP) feels proud of our faculty members and students achievement and congratulate every inventor who has been a part of these patents. We look forward to working with them to commercialize the patents.
